# WHAT TO CONSIDER BEFORE BEGINNING THAT HOME IMPROVEMENT PROJECT

Submitted by Building Department

With spring's arrival and summer approaching, many homeowners have home improvements and outdoor projects on their minds. The Heber City Building Department would like to remind you that many of these projects require a building

permit prior to beginning. Basement finishes, walkouts, decks, pergolas and retaining walls should all be permitted. Getting a permit ensures safety and provides peace of mind that your project meets building code safety standards. If you chose to undertake these projects without a permit, it can be a class C misdemeanor for homeowners and a class A misdemeanor for licensed contractors. Getting your project permitted is not just a good idea, it is the law!

Please visit the Heber City web site, www.ci.heber.ut.us where you can find the necessary information to get started on the permitting process. If you cannot find what you need on the web site, you may contact us at 435-654-6330.

**NOTICE:** The City would like to make residents aware that it's general contractor, Staker Parsons and their subcontractors, will begin road maintenance work on many of Heber City's roads this summer starting in the May and

continuing through September. This is part of the City's ongoing road maintenance program to patch, slurry, chip, and overlay various roads every 5 to 6 years throughout the City. These treatments seal and extend a road's useful life for a fraction of the cost of replacing roads if nothing were done. Periodic notices or flyers with details will be provided as work is done in your area. Questions can be referred to the Heber City Engineering department at 435-657-7892.
